Career Objective

Computer Engineering student currently learning Java Full Stack Development, with a strong foundation in Core Java and modern web technologies. Seeking an internship or entry-level job where I can apply my technical skills to real-world projects while gaining hands-on industry experience and contributing to organizational growth.

Education

B.E. Computer Engineering ISB&M College of Engineering	Expected 2027
Diploma in Computer Engineering Government Polytechnic, Miraj	2023 – 2024 Percentage: 86.84%

Technical Skills

Languages: Java, SQL
Web Technologies: HTML, Spring, JavaScript
Database Technologies: MySQL, JDBC
Tools: GitHub, Eclipse, Postman

Training

Java Full Stack Developer Trainee (Ongoing – 2026) InfoBeans Foundation, Pune
Currently learning Core Java, JDBC, Spring Boot, and MySQL, along with developing responsive front-end interfaces using HTML, CSS, and JavaScript.
Gaining hands-on experience through real-world projects and Git-based version control.

Projects

Student Management System (Core Java)

GitHub Repository

Developed a console-based application to perform CRUD operations on student records. Implemented file handling and object serialization to enable persistent data storage. Applied object-oriented programming principles and Java I/O streams.

Employee Time Tracker (Core Java, JDBC, MySQL)

GitHub Repository

Built a console-based employee attendance tracking system using Core Java and JDBC. Designed and integrated a MySQL database to manage check-in and check-out records. Implemented secure database connectivity and full CRUD functionality.

Certifications

Web Development Fundamentals — IBM SkillsBuild
